ANIMAL EYES

Dragonfly

Dragonfly eyes

This dragonfly has eyes that are made up of many tiny eyes. Dragonflies are very good at seeing things move.

Use your eyes to see all the animal eyes around you.

Chameleon

Chameleon eye

This kind of lizard does.
Each eye can look
in a different place.
The left eye sees one thing.
The right eye sees something
different at the same time.

You use your eyes to see.
Animals use their eyes
to see, too.

Animal eyes can be small or large. Some animal eyes can look very strange!

What animal has eyes that look like this?

Horned owl

Owl eye

This owl does.
Its eyes help it
see well at night.
An owl cannot move its eyes.
It must turn its head
to look around.

What animal has eyes
that look like this?

Lynx spider

Spider eyes

This spider does.
It has eight eyes
that look like little dots.
Most spiders can't see
very clearly.
But many spiders are very
good at seeing things move.
